Expires 10/31/12.

HAS YOUR HOME EXPERIENCED ANY OF THESE TROUBLES?

- | | | |
|---------------------------------|---------------------------------|--------------------------|
| ✓ Drains that empty slowly? | ✓ Drains that gurgle or bubble? | ✓ Toilets that overflow? |
| ✓ Drains that give off an odor? | ✓ Toilets that often clog? | |

IF SO, IT MAY BE A WARNING SIGN THAT YOUR MAIN SEWER LINE COULD BACK UP.

Some homes 15 years or older may have serious issues with their sewer line. If your home is a similar age, it may have similar issues. If left untreated, it could lead to a sewer back-up which can spew bio-hazardous materials, including feces, toilet paper, storm run-off and more into your home. It could:

- Damage furniture, electronics, valuables, and more
- Cost thousands of dollars to repair (and many insurance policies do not cover it)
- Require intense clean-up that includes the removal of flooring and drywall
- Leave a foul odor that can remain for weeks
- Create a risk of mold developing
