RE: Cured in Place Pipe Lining (CIPP)

Dear Mr. Porter:

In response to your presentation of the Cured in Place Pipe Lining (CIPP) before the Illinois Plumbing Code Advisory Council and staff of the Illinois Department of Public Health on September 27, 2005, please note the following:

The Illinois Plumbing Code Advisory Council has reviewed your presentation and the information you provided. It was by unanimous decision of those individuals in attendance that Cured in Place Pipe Lining (CIPP) be approved for use in the State of Illinois as long as the lining material meets the standard for building draining under a floor.

If you have any questions or concerns regarding this matter, please contact the Illinois Department of Public Health, Attn: Plumbing Program, 828 S. Second Street, Springfield, Illinois 62704, telephone (217) 524-0791.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Ted Buecker".

J. Ted Buecker
